# THE GREAT CELEBRATION

A FAVORABLE REPORT MADE TO THE SENATE.

HEARING BEFORE THE COMMITTEE.

Action on the Exposition Project Postponed Temporarily-Favorable Views

The Senate Select Committee on the Centennial of the Constitution and the Discovery of America had a meeting this morning in the room of the Committee on Privileges and Elections,

Senators Hiscock Hawley, Hoar, Voor-bees and Colquit being present. Mr A. D. Anderson, secretary of the Board of Promotion, addressed the committee, arging that the bill which has been favorably reported to the Senate providing for the Permanent Exposition, and the bill passed the Senate providing for the Constitutional Centennial should be reported by the committee as amendments to the San-

Mr. Anderson explained in a few words the plan of the Board of Pro-motion of the Permanent Exposition

of the Three Americas. Mr. Voorhees asked where the committee expected to get the money to carry on the exposition and maintain the permanent exhibit, to which Mr. Anderson replied that the States and Territories would be called upon to contribute \$100,000 cach, and, from a large number of letters already re ceived from Governors, there was every prospect that the money would

be forthcoming.

Mr. Voorhees said he thought the probability of getting the money from the State Legislatures was very slim. He said he did not believe this idea of rising the money would succeed. He was in favor of voting money out of the United States Treasury, and making the occasion of the celebration commensurate with the power of the country. He did not think it was quite right to invite the South Amerian Republics to come here with exhibits and require them to pay their own expenses. He was allling to ap-propriate \$5,000,000 to carry the matter

o a successful head.

Ex-Governor Chaffin of Massachusetts addressed the committee. He was in favor of the exposition of '92. Other nations have their own expositions at periods. The United States have more cause to hold exposi-tions than other nations. The time has come for this exposition. The people expect it. It is of the greatest importance that some action should be taken at this session of Congress. The committee decided to report as an amendment to the Sundry Civil bill the bill which passed the Senate providing for the Constitutional Centennial in 1889. The bill provides:

to Rescue Michael Davitt.

London, Feb. 6, - The witness, Beech, or Dr. Le Caron, resumed his testimony to-day before the Parnell Commission. He stated that at a conference of the "B. C." Society, in 1881, preparations for dynamite operations were discussed. It was also recommended that classes be organized for the study of mining engineering. Mr. Parnell, he said, was pres-

ent at this conference.

The witness then detailed a conversation he had had with Alexander Sullivan in 1881 on the subject of the pro-posed alliance of secret organizations. At a secret meeting, held prior to the convention referred to, Delegate Con-nor attacked the revolutionary directory for inactivity during the past two years. They had failed to execute certain of his suggestions, including the projects of rescuing Michael Davitt from prison and of fitting out an ex-pedition to South America against the

How the Demonstrations in Berlin are LONDON, Feb. 6.—The periodical socialist outbreak in Belgium, the recurrence of which was predicted some time ago, has been brought about in

the usual way. All socialist disorders

in Belgium are conducted under the

guise of uprisings of discontented, ill-

used, ill-pald workingmen, and all

workingmen's strikea in that country are nothing more nor less than socialist demonstrations. It does not follow. however, that all Belgian socialists are workingmen are socialists. For several years past the Socialist leaders have devoted most of their time to foreciting strikes among the glass-workers and iron and coal miners in Belgium, and in the case of every strike that has occurred the misguided workingmen have received at the hands of the Socialists what those worthies are pleased to call assistance. This aid has been chiefly, if not whotly, confined to the incitement of

collisions between the strikers and the police, in which the former have in

variably come off second best, and the measure of benefit derived by the de-fented workers from the interest taken agitators may therefore be easily esti-Still, there seems to be no abatament of the confidence reposed in the agitators by their dupes, as the present strike at Charleroi attests. LAWS THAT ARE VIOLATED.

Some oTough Stories" Told About the Actions of Certain Customs Officials

Cincago, Feb. 6 .- A special to the Tribune from Victoria says that the Government is being cheated out of millions of dollars of revenue every year and that the laws against Chinese immigration are flagrantly violated right under the noses of the Govern-

The Tribun's correspondent says there are in Victoria nine factories, or "cook houses," where opium is man-ufactured and prepared for the market. The combined product is about 300,000 pounds a year, nearly all of which is used in the United States and only avery small part passes through the custom frouses

There are in Victoria and its im-mediate vicinity more than a score of persons who are openly engaged in the business of smuggling opium into the

light of recent developments it is be-lieved that there has been some extensive that there has been some extensive thieving and few of the rascals have been caught. Some of the smugglers in Victoria openly boast that they have been able to bribe almost every custom-house official they have come in contact with."

But opium forms only a part of tha

stock in trade of the big smugglers, for the most netarious of their opera-tions is the traffic that is being carried on in Chinese slaves. Chinese, men and women, are bought and sold with as much impunity as the Southern States trafficked in African slaves before the war. The business is rapidly increasing, and is now among the most lucrative industries of Vancouver Island. Men are getting immensely rich out of it, and talk about the traffic freely and unblushingly as merchants discuss profits in sugar and dry-
